

Interpreting your National Evaluation Series™ Score Report

Your score report provides your results and a description of your performance for the test taken on the test date.

1 Score

Your total score is reported on a scale from 100 to 300 and is based on the number of multiple-choice questions answered correctly combined with any constructed-response assignment score(s). If you received a test score at or above the National Benchmark, you have a “Pass” status. If you received a score below the National Benchmark, you have a “Did not pass” status.

2 Reporting

The state(s), institution(s)/educator preparation program(s) listed receive your scores as you indicated during registration.

3 Scaled Total Test Score

If you meet the minimum passing score, your numeric score will not be reported and you will receive a “Pass” status. Your scaled total test score is based on your performance on the entire test: the number of multiple-choice questions answered correctly combined with any constructed-response assignment score(s).

4 Multiple-Choice Information

Performance on the multiple-choice section is based on the number of questions answered correctly; points are not “lost” for wrong answers.

5 Domain/Subarea Number Correct

Your domain/subarea scores are reported by the number of items correct and provide feedback on your performance by domain/subarea. This descriptive-only information may help you assess your strengths and weaknesses.

6 Performance Graph

The performance graph illustrates your performance in each domain/subarea by percentage correct.
